

Shapel Tide Clocks

How to set the time indicator

Congratulations on owning a Shapel Time Indicator (Clock).

This clock is designed to match the Shapel Tide Clock range.

Proudly hand made in Australia, it features a solid timber base, solid brass bezel and a quality Takane clock movement (made in USA).

Simply insert one AA battery as indicated in the battery compartment and use the adjustment wheel on the back of the clock to set the correct time.

Your clock has been tested after assembly and comes with a 12 month warranty against manufacturing defects. In the unlikely event there is a problem with manufacture, simply contact the retailer you bought it from and we will help sort out any issues.

Proudly designed & hand made in Australia by Sole Supplier:
